

## Project Planning Phase

### Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

|               |  |
|---------------|--|
| Date          | 19 February 2026                       |
| Team ID       | LTVIP2026TMIDS47037                    |
| Project Name  | HematoVision Blood Cell Classification |
| Maximum Marks | 5 Marks                                |

#### Product Backlog, Sprint Schedule, and Estimation (4 Marks)

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task  | Story Points | Priority | Team Members |
|----------|-------------------------------|-------------------|--|--------------|----------|--------------|
| Sprint-1 | User Authentication           | USN-1             | As an Admin, I can register and manage user roles (Lab Technician, Doctor, Hematologist) | 2            | High     | Team         |
| Sprint-1 | User Login                    | USN-2             | As a User, I can securely log in and access my dashboard                                 | 3            | High     | Team         |
| Sprint-1 | Image Upload Module           | USN-3             | As a Lab Technician, I can upload blood sample images for classification                 | 3            | High     | Team         |
| Sprint-1 | AI Model Integration          | USN-4             | As a System, I can process uploaded images using the trained AI model                    | 3            | High     | Team         |
| Sprint-1 | Report Generation             | USN-5             | As a Hematologist, I can view classification results and detailed reports                | 2            | High     | Team         |
| Sprint-2 | Abnormality Detection         | USN-6             | As a System, I can detect abnormal or rare cells automatically                           | 3            | High     | Team         |
| Sprint-2 | Cloud Storage                 | USN-7             | As an Admin, I can store reports and images securely in the cloud                        | 3            | High     | Team         |
| Sprint-2 | Dashboard & Analytics         | USN-8             | As a Doctor, I can view patient reports and analytics in a visual dashboard              | 3            | Medium   | Team         |
| Sprint-2 | Testing & Optimization        | USN-9             | As a Team, we can test model accuracy and optimize performance                           | 5            | High     | Team         |
| Sprint-2 | Feedback & Review             | USN-10            | As a User, I can submit feedback for improving report quality                            | 2            | Medium   | Team         |

### Project Tracker, Velocity & Burndown Chart: (4 Marks)

| Sprint   | Total Story Points | Duration | Sprint Start Date | Sprint End Date (Planned) | Story Points Completed | Sprint Release Date (Actual) |
|----------|--------------------|----------|-------------------|---------------------------|------------------------|------------------------------|
| Sprint-1 | 13                 | 7 Days   | 01 Mar 2026       | 07 Mar 2026               | 13                     | 07 Mar 2026                  |
| Sprint-2 | 16                 | 7 Days   | 09 Mar 2026       | 15 Mar 2026               | 16                     | 15 Mar 2026                  |
|          |                    |          |                   |                           |                        |                              |
|          |                    |          |                   |                           |                        |                              |

#### Velocity:

Total Story Points =  $13 + 16 = 29$

Number of Sprints = 2

Velocity =  $29 / 2$

Velocity =  **$14.5 \approx 15$  Story Points per Sprint**

#### Burndown Chart:

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time. In this project:

Sprint Duration = 7 Days

Total Story Points per Sprint  $\approx 15$

Daily Work Completion  $\approx 2\text{--}3$  Story Points per Day
